

## Risk Management for Underground Construction: Lessons Learned from the Millennium Tower Project

Zoom

04.22.2021 | 12:00-1:30

Event Sponsor: Connecticut Bar Association-Construction Law Section

A discussion of the lessons learned, both legal and technical, arising from the Millennium Tower project in San Francisco. The Millennium Tower is a 58 story, luxury rental building, home to many high-profile residents, that started to sink and tilt after completion. One corner of the Tower descended at least 18 inches. The speakers were instrumental in resolving the dispute that ensued.
