

Mall Renovation Construction Contracts

01.30.2020

We are representing a real estate developer in the renovation of a 150,000 square foot retail strip mall in a suburb of New York. The facility had been rented by large, big box retailers and is now being converted for a new tenant mix. We are preparing the project management agreement between the developer and the Owner's Representative as well as the construction contracts with the General Contractor.

PRACTICE AREAS

Contract Negotiation & Preparation
