

Manufacturing

Zetlin & De Chiara has crafted construction contracts and resolved disputes for various manufacturing projects. Examples include litigations over state-of-the-art industrial production facilities and contract development for food services distribution and packaging facilities.

The following are select representative matters:

Food Services Distribution and Packaging Facility Development Contracts

We negotiated design-build development contracts for food services distribution and packaging facility.

Large Retrofit Project Arbitration

We represented engineers in a large urban retrofit project.

State of the Art Industrial Production Facility Litigation

We were retained to represent our client in a hotly contested litigation over a state-of-the-art industrial production facility.
